POLICY DOCUMENT ON WATER CONSERVATION

Water scarcity is one growing concerns of the present times, the ultimate solution for which is water conservation. Issues related to water governance have not been addressed adequately. Mismanagement of water resources has led to a critical situation in many parts of the country. In this context our institute is committed to rain water harvesting and sustainable water management. We have taken several initiatives to conserve water such as rain water harvesting from rooftop run-offs, creation of pond/trenches and bore well recharge system, maintenance of water distribution system etc. Therefore, institute make a policy for water conservation and sustainable maintenance of resources.

Objectives:

- To increase recharge of groundwater by capturing and storing rainwater, by rain water harvesting from rooftop and run-offs.
- To recharge bore well system.
- To Reduce wastage of water

Action Plan

- Rain water harvesting from rooftop run-offs.
- Well-developed bore well recharge system
- Communicate the objectives of the policy and action plan to staff members and students
